

## **BBL 514E (Spring 2025) Project Final Report Format**

Behçet Uğur Töreyn

Submit your final reports by due date and time. Use templates available at the following URL:

<https://www.ieee.org/conferences/publishing/templates.html>

Please share your codes and a three-minute-presentation of your project by uploading them to a repository and share the link.

Your final report should, at least, include the following sections.

**Title:** Title for your project.

**Team:** Names and responsibilities of the project team.

**Synopsis – Abstract:** Summarize the problem, the state-of-the-art solutions, your hypothesis, data you train/test your method(s), and results.

**Problem Statement – Hypothesis – Literature Survey:** State the problem you study. State your hypothesis and provide with a literature survey presenting the state-of-the-art methods/techniques for the problem.

**Method(s) – Data – Results – Discussion and Conclusions:** Present technique(s)/method(s) you develop with sufficient details. Mathematical expressions and/or plots/figures might be included to better describe approaches. Present details of the data (source, content, etc.) you use to train and test your algorithms.

Comment on the results.

Provide discussion and draw conclusions.
